

Sandy Point Yacht Club Minutes  
February 5, 2016

Our Commodore, Jeff McKay called the meeting to order at 7:20 pm. There were 24 people present. Three guests were present, Dave and Dee Neff and Charlie Simpson. All three joined our club.

Treasurer's report : We have a balance of \$1801.25 in the bank. This doesn't include monies collected tonight from memberships.

January's meeting minutes were read and approved.

**Old Business**

Life Jacket Kiosk and Dock Ladders: The Sandy Point Board of Directors was informed of our concerns and interest in these improvements. They referred the matter to committee. Diana Parker and Betty Beaulieu volunteered to join the Marina Committee and are waiting for the first meeting. This project will hopefully be planned, implemented and financed by SPIC. Diana found a website through the state where child-sized life-jackets can be obtained at no cost. Anyone else who wishes to volunteer for this committee, please contact Tom Larsen from The SPIC Board.

Canal Dredging Project continues progressing. JARPA Permits are submitted and are waiting action from the Army Corp of Engineers. The areas to be dredged are "Fee Land" and not "Tidal Land". This is another example of continued progress by other entities benefiting of our boating community.

**New Business**

Our guest speaker, Charlie Simpson gave a very interesting presentation about his career and continued experiences as a helicopter pilot with the Coast Guard and Homeland Security.

The meeting was adjourned by our Commodore.
